LEA & PERRINS

CELEBRATED

WORCESTERSHIRE SAUCE,

DECLARED BY CONNOISSEURS

TO BE

The Only Good Sauce.

CAUTION AGAINST FRAUD.

The success of this delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA & PERRINS' SAUCE,

and to see that their names are upon the Wrapper, Label, Stopper, and Bottle.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce and see Name on Wrapper, Label and Stopper.

Wholesale and for Export by the Proprietors, Worcester; Crosse and Blackwell, London, &c., &c.; and by Grocers and Oilmen universally.

TESTIMONIAL.

"Harpenden, 7th March, 1871.

To Mr. THOMAS KEATING,

"Sir,—My two little girls, aged respectively three and two years, showed symptoms of having worms, as I obtained some of your Worm Bon Bons from Mr. Bushby, and they effected such a thorough cure—in fact, I think, saved their lives. The elder little girl had sixteen worms come from her. I think it my duty to acquaint you with the fact.

NOTICE TO MARINERS.

No. 4 of 1875.

POINT ATKINSON REVOLVING LIGHT.

Notice is hereby given that a Lighthouse has been erected by the Government of Canada on Point Atkinson, at the north westerly entrance to English Bay and Burrard Inlet in the Straits of Georgia, British Columbia.

Latitude 49 deg. 19 min. 42 sec. N.

Longitude 123 deg. 15 min. 54 sec. W.

A Revolving White Light on the catoptric principle, elevated 119 feet above high water, will be exhibited on 1st May next. The light will show at intervals of one minute, making a complete revolution in two minutes.

The tower is a square building with dwelling house attached, painted white, elevated 40 feet from summit to centre of Light. The Light will be visible round an arc of the horizon from the entrance to Burrard Inlet to an E. by N. ¼ N. bearing, and should be seen in clear weather 14 or 15 miles distant.

The Light should not be brought to bear to the Eastward of North by vessels in the Straits, as this bearing will only lead clear of Sturgeon Bank off Fraser River.

The Bearings are magnetic.

The Light is for coast purposes and to indicate the entrance to Burrard Inlet.

Ayer's Hair Vigor

FOR RESTORING GREY HAIR

TO ITS NATURAL VITALITY & COLOR

Advancing years, sickness, care, disappointment, and hereditary disposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stabilished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

L. P. FISHER, 20 and 21 New Merchants' Exchange is our authorized Agent in San Francisco.

REGISTER! REGISTER!!

Electors of British Columbia. The Ministry succeeded, with the aid of a servile and corrupt majority, in forcing through the Legislature, under false pretences of the old law having been disallowed, a new Qualification and Registration of Voters Act. This Act not only surrounds the franchise right with unnecessary and vexatious complications and restrictions amounting practically to a return to the old system of property qualification, but it imposes upon you the necessity of ANNUAL REGISTRATION and of going before a Magistrate every year to swear to your own identity, &c., &c. There can be no doubt that this law will operate largely as a disfranchiser in the country districts; as it is too much to expect farmers to leave their work in seed time and travel in many instances a day's journey in order to comply with the vexatious and arbitrary provisions of an illiberal law which ought never to have been passed, and the only conceivable object of which was to decimate the ranks of voters which Ministers feared. A GENERAL ELECTION IS AT HAND. You have only till the FIRST DAY OF JUNE on the Island, and the FIRST DAY OF JULY on the Mainland, to register, and it remains for you to show that you appreciate and deserve the rights of freemen by rallying around the Ballot-box and securing the return of such men to the next House as shall redeem your freedom and hurl from power men who are hurrying your country on to financial ruin! It is for you, by one grand uprising—one patriotic effort, to defeat the diabolical object of the new law.

Postal.

That the foreign mail relations of this Province are in an extremely unsatisfactory condition nobody can deny. A few weeks ago there was a great show of American enterprise. A certain San Francisco steamboat company was going to send a boat here every week and rush things generally on the North Pacific. There had been a good deal of talk about British capital and enterprise relieving our American neighbors of the service, or at least sharing it, and the representatives of two embryo companies were at Ottawa seeking assurances of subsidiary encouragement. It does not seem to have occurred to the unsuspicious Canadian authorities to connect these circumstances with the weekly steam splurge which would appear to have contributed its quota towards superinducing the existing unsatisfactory condition. However groundless the suspicion may be that the grand weekly project was merely a bit of Yankie "steamboating," it is beyond question that the time of its birth and the time of its death were both suggestive and suspicious. These recent experiences have their lessons which it were well that the Government and people should read, mark, learn and inwardly digest. The first is that of self-reliance and self-help. As a British people, we can and should be our own carriers. In former articles we pointed out that this community was not only competent, but that it was its obvious interest in every sense to undertake the steam service between Victoria and San Francisco. The second is that we should not rely too much upon a neighbor who, having little or no interest in common with us, is not at all likely to serve us well. We are paying annually very large sums for the mail service between here and San Francisco, and are getting very little value for it. It is earnestly to be hoped that the service may be placed on a more healthy and satisfactory basis. If no British hand will grasp it, let the conditions be at least such as will afford a reasonable guarantee that the interests of the country shall not be altogether lost sight of, if not wantonly trampled upon.

Historical.

Here are a few extracts taken from a leading article in the *Standard*, showing the estimation in which it held Mr. Walkem prior to the Kriemler Farm affair:—

"Mr. Walkem in the session of the Legislative Council, in 1867, said that people on the Mainland, above New Westminster, were unfit for representative institutions. * * * Now, Mr. Walkem can have the presumption to offer himself to the people of Cariboo as a candidate to be elected by the electors of that District, we cannot comprehend. How the electors of Cariboo could place sufficient confidence in him to return him, would be something much more mysterious. We have watched his whole political career, both before and after the Union of this Colony, as a legislator,—as a representative of Cariboo, and as a nominee of Mr. Seymour, in the Council,—and we must say that the acts and leanings of Mr. Walkem have been entirely against the people and the popular interest. *The chief virtue that he has ever exhibited was in showing his public spirit to get into office to serve his own ends.* * * * * But it is in the illiberal votes of Mr. Walkem—his votes and speeches against granting representative institutions—against the fitness and right of the people to self-government,—to Responsible Government,—that we find most objection. Always on the side of despotism, always against granting to the people the right to manage their own affairs, he now puts himself forward as a fit and proper person to represent those whom he has declared over and over again to be unfit for self goverment—unfit to govern themselves. When place and power were to be had by toadying to the officials, Mr. Walkem was always a convenient friend, a sympathizing supporter of irresponsibility and a worthy agent even in high-handed proceedings. Take the Humphreys prosecution. Who brought the case up in the Council? Walkem. Who acted as prosecutor? Walkem. Who managed the prosecution in the most illiberal way? Walkem. Whose tool was he? Trutch's."

More anon. It will be interesting to contrast the *Standard's* opinion of Mr. Walkem before and after he became its paymaster. It will be interesting for the voters to compare the character it gave him when free to tell the truth with that which it shall doubtless be prepared to give him at the forthcoming election. "How can a man help prevarieating when he has lost his front teeth?" indignantly retorted the witness when taken to task by the Judge for not telling a straight story. "How can a journal tell the truth with Government pap in its mouth?" would not be an unfitting retort for our contemporary.

Who May Register in Country or Mining Districts.

Sec. 28. The words "stated resident" shall mean,—

(a.) In all other parts of the Province, a person having for six months immediately previous to sending in his claim to vote, and being at the time of sending in his claim to vote possessed of any of the following qualifications:—

1. Having a freehold estate in the District for which he claims to vote of the value of one hundred dollars:
2. Or a leasehold estate, situate as aforesaid, of the annual value of twenty dollars.
3. Or being a holder or occupier, in accordance with the provisions of the Land Ordinance or Act under which he recorded, of a pre-emption claim of not less than one hundred acres; or being a recorded settler or homestead settler upon Crown Land.
4. Or having continuously resided, immediately previously to sending in his claim to vote, for a period of a year in the Province, and for three months of that period in the district; and in this instance no other qualification of residence shall be required.
5. Or having paid an instalment of the purchase money for any Crown Lands in the Electoral District.
6. Or being a householder situate as aforesaid, occupying any house, warehouse, counting-house, office, shop, or other building or premises, and paying therefor the clear annual rental of twenty-five dollars.
7. Or holding a licence issued in the District under the "Licences Ordinance, 1867," and amendments other than a Mining Licence, as in Sub-section (2), Schedule A.

NANAIMO.

[From the Free Press.]

The residents of Wellington district have made extensive arrangements for sports on the 24th of May at Diver Lake. Dunsmuir, Diggle & Co., with their accustomed liberality, have given $250 towards the object.

Mr. Drummond was awarded the contract for railway ties for the Vancouver Coal Co.

The Harewood Co. are having a road cut to their mine.

The "merrie" month of May was ushered in right royally by the young folks, who were astir quite early on Saturday, and as busy as bees in the veritable hive into which they turned our noble schoolhouse. The procession was headed by Miss Sarah Ann Bate, ex-Queen, and Miss Katie McGregor, the Queen elect, supported by maids of honour, life guards and a numerous train of "lassies and lads," bearing banners and singing gaily to the sound of the merry pipe. On arrival at the festive scene, the May pole—bound in white and trimmed with the traditional wreaths and garlands of flowers and ribbon streamers—was raised aloft and sports began.

Appropriate addresses were delivered by the ex-Queen and by the Queen elect, and the numerous company then engaged in games and sports of various kinds, conducted by Mr. Planta. The "fete" was a complete success. The commissariat arrangements were kindly superintended by Mrs. Bate, Mrs. Bryden, Mrs. Mason and Miss Lindsay. Considerable sympathy was expressed for Mrs. Young, who was unavoidably absent after the opening scene through severe indisposition.

THE Bishop of Lichfield, speaking at a meeting of Churchmen at Wolverhampton on a recent evening, deplored that after the consecration of churches there should be such expensive dinners, at which champagne at 8s. a bottle was drunk. Drinking after the consecration of burial-grounds was even worse. Worse still was drinking at funerals, where poor widows were often made poorer to give drink to mourners. He call for two hundred people to join him in pledging themselves that on no conditions would they ever sanction drinking either before or after funerals. He believed Churchmen's influence would soon effect a change in drinking customs.

THEATRE ROYAL.—Miss Louise Irving, the accomplished young vocalist and actress, will take a benefit this evening. She will be assisted by Miss Patten, Messrs. Calhoun, Neville, Watson, Childs and others, and a full orchestra. Some capital scenes in minstrelsy will be produced.

THE LONDON HOTEL has been handsomely refitted and renovated and presents a cosy appearance in the hands of its new owner.

Nanaimo Assizes---Trial of the Looking-Glass Murderers.

The Court was opened on Wednesday the 5th inst., at 10 a. m.—Mr. Justice Gray, presiding.

The first case tried was an indictment for murder—the Queen *versus* Mac-mooye-soo-a-me, and Lalla Cootsa. The first prisoner having committed suicide a few days ago at Victoria Gaol, the trial proceeded against Lalla Cootsa, and occupied the whole day and was given to the jury at 10½ p. m. At midnight they had not agreed and were kept together until the opening of the Court at 11 a. m. on Thursday, but failed to agree upon a verdict and were discharged by the Court.

The second case was an indictment for murder against the first-named prisoner and Partlett, a Fort Rupert Indian. This case occupied the day and evening, and the jury acquitted Partlett.

Mr. A. E. B. Davie prosecuted for the Crown in each cask, and Mr. McElmen defend the prisoners.

SPELLING MATCH.—The spelling fever struck our town on Tuesday evening, the first match taking place at the M. E. Church at that time. Quite a number were present, and Judge Lewis was called to the chair. Our local, Ed. H. Brown and the city clerk, W. R. Andrews, were selected to act as Captains. After they had chosen their respective sides the contest began. Judge Lewis, who gave out the words, selected some easy ones in the back part of a spelling book and soon the ranks began to thin out. We retired on "paradigm." In a short time our side was all down, leaving two (Mr. Freeland and Mr. Andrews) on Mr. Andrew's side. The same side began again and words were selected from newspapers and magazines. After about half an hour of this, and no one down, the Judge decided to return to the spelling book, which was done with disastrous effect. Mr. Andrews' side again victor, Dr. Freeland being the champion. The ladies and gentlemen were then ranged against each other and after half an hour's hard work but two remained on either side. Of the ladies, Mrs. T.S. Russell and Miss Nellie Terry; and of the gentlemen, Professor Young and Dr. Freeland. These four were undoubtedly the best spellers present. An exciting contest ensued which finally ended by Professor Young being declared the victor. After a vote of thanks to Judge Lewis, the meeting adjourned to meet on Tuesday evening next at the same place. No admission fee will be charged and every one is invited.—*Seattle Dispatch.*

MISINFORMED.—The Seattle *Dispatch* says: Some time since, on the authority of a letter from Mr. Harrington to his partner, Mr. Crawford, we announced that Goodhall, Nelson & Perkins had concluded to haul off their line of steamers between San Francisco and Puget Sound. It now appears that Mr Harrington was misinformed. The steamship Los Angeles came into port on its advertised time, and Capt. Howell assures us that her owners, as far as he knows, have not the least idea of drawing off the vessel; on the contrary, they look forward to the time when it will be to their interest to increase the service.

THE ISABEL.—This steamer has been almost entirely rebuilt by Mr. P. D. Forbes, her passenger and carrying capacity greatly increased, and her machinery and boiler repaired and improved. A considerable portion of the deck is arranged for stock, staterooms have been constructed on the hurricane deck, a spacious dining-room and saloon built on the lower deck, with berths for passengers beneath. She will pass out of Mr. Forbes' hands and into that of Captain Morrison next week, and will sail for Wrangel on the 13th inst., with freight and passengers. Application must be made to Welch, Rithet & Co., agents.

FROM THE EAST COAST.—The steamer Maude arrived about 7 o'clock last evening with a fair freight and the following passengers: Judge Gray, C. Pooley, A. E. B. Davie, A. T. D. McElman, Rev. Mr. Holmes, Mr. and Mrs. Lockaway, Mrs. Eckstein, Mrs. Bednall, Miss Pollard, Messrs. Evans, Marshall, Manetta, Copeland, Hamilton, Richardson, Muir, Irving, and a few others. She reports the Arkwright loading at the Vancouver Coal Mine, and the W. Libby at Departure Bay.

AH!—Premier Walkem has written up to say that he will build the long-asked for bridge across the Nanaimo Ravine. As the bridge has been asked for unsuccessfully for four sessions—including the last—and refused, it is not a little singular that it should be granted on the eve of a General Election. Perhaps the grouse-shooter of Kriemler's Farm will find that the people of Nanaimo can see as far through a grindstone with a hole in it as he can.

H. M. S. REPULSE, flagship of Rear Admiral Cochrane, anchored in the outer harbor at 4¼ o'clock yesterday afternoon. She sailed from San Francisco on the 27th ult., and came up under sail and steam. All hands are reported well. She will come into the harbor to-day.

THE POLYNESIAN, one of three missing Canadian steamships, belongs to the Allan line and is one of the finest vessels in the world. She has 1300 passengers—principally English agricultural laborers on their way to settle in Canada.

FOR THE BOUNDARY LINE.—The steamer Isabel will endeavour to reach the Boundary Line on Stickeen River. Should she succeed in doing so she will be enabled to avoid the Customs nuisance at Fort Wrangel.

FILLING UP.—The California has more freight offering for Cassiar than she can carry. She will have at least 100 passengers bound for the diggings.

THE French ship Bordeaux, to load at Hastings Mills, arrived yesterday morning and was towed to the Inlet by the tug Grappler.

The Ocean Mail Subsidy.

A dispatch from Ottawa, yesterday, announces that the bids for the ocean mail service between Victoria and San Francisco were opened on the 4th inst. and that the bid of Henry Rhodes & Co. of this city was found to be the lowest. The firm, we understand, will place two first-class iron steamships (British) on the route, of 1200 tons each and capable of making the trip in from 2½ to 3 days. The headquarters of the line will be at Victoria. It is gratifying to know that the service has at last passed into the hands of a company who will employ only first-class vessels.

HORNELLSVILLE, N. Y., May 6.—The Portage Bridge on the Erie Railroad, said to be the largest wooden bridge in the world, and which spanned the Genesee River Falls, was burned last night. No interruption to travel.

NEW YORK, May 6.—London advices say that British Consols are 18 @ 18¼—lower than United States bonds; also a shade easy. A dispatch from London says this is due to a collapse on the Poits Bourse, which is generally considered here, however, to be purely local.

The Pope's Declining Health.

[Rome Letter to the Philadelphia Bulletin.]

His Holiness never has any fire. The vast halls of the Vatican are bitter cold. Even in the Papal bedroom there is no fire. In the great ante-rooms there are those huge copper braziers, detestable things, filled with charcoal and asphyxia. There is a rumor that the Pope intends to come down from the Vatican into St. Peter's every Friday during Lent to adore the Blessed Sacrament, according to an old custom of his before the entry of the Italians in 1870. The clerical journals do not confirm this report, but I should not be surprised if he did so. The health of the Holy Father is causing some uneasiness among his medical men. He is not positively ill, and every one who sees him at an audience reports him as remarkable rosy, active and cheerful. There is no pain in his extremities, no indication of disease, but there are languid symptoms in the adipose matter that gave rise to fear that a slow paralysis is approaching. His attendants notice that his strength is less; he talks very little, has not much appetite; but, luckily, is anxious to move about. Last Sunday, as the day was fine, he wished to walk in the garden, but when he reached the library his breath became asthamatic, and he had to be held up by Monsignor Ricci and a Spanish Bishop, who were present; after he rallied he returned to his apartment, but the usual audience of the day took place. The audiences cheer him. The people who crowd to see the Holy Father are always agreeable. No matter what may be the religious faith or political views, each visitor approaches that venerable old man with respect and reverence. The physicians counsel him to use as much physical motion as possible, as well as agreeable and varied occupation. Therefore, as I have said above, I should not be surprised if the report of the Lenten Friday visits to the Sacrament Chapel of St. Peter's should be true.

"THE FATHER OF THE FREEMASONS."—David Osment died at Sherborne, a town in Dorsetshire, England, on the morning of 19th March. The deceased was born on Midsummer Day in 1775. He joined the Freemasons in the year 1819, and at the time of his death was a member of the "Lodge of Benevolence, No. 1,168." He held office as Tyler of his Lodge for twenty years, and about the year 1850 received a pension from the Royal Masonic Benevolent Fund, which he enjoyed till the present time. His health was good, and he was confined to bed for about three days only before he died.—"London Times."

The Dublin "Evening Post" states that the resignation of Mr. O'Callaghan, M.P. for Tipperary, will be announced immediately on the re-assembling of Parliament after the Easter recess. The same journal states that preparations for a conference on the subject of the election of a successor to Mr. John Martin, in the represestation of Meath, are going on.

A very good idea of the intense heat of Thursday, February 6, at Ballarat, Australia, may be gathered, says the "Courier," from the fact that a gentleman on Soldiers Hill placed a school slate for a while out of doors, then spread some butter upon it, and breaking an egg thereon, in few minutes the egg was perfectly cooked, as if done in the orthodox pan over a fire.

At a sale of the effects of the late Mr. R. Needham, printer for the Wesleyan Conference, some valuable copyrights of Methodist works were disposed of. Much alarm is said to be felt by the farmers at this wholesale exodus, there being now in many parts a positive scarcity of laborers.—[Pall Mall Gazette.

A remarkable instance is quoted by the Calcutta "Indian Statesman" illustrative of the early marriages among Hindoos. In a case of theft tried by a magistrate of Hooghly, the witnesses examined were the great-grandmother of the child, the grandmother and the mother, and their respective ages were taken down, as is usual in Mofussil courts, as follows:—The great-grandmother, forty years; the grandmother, twenty-eight; and the mother only fifteen.

If Mr. Disraeli is not a Freemason, the Prince of Wales, for the advantage of the Order and Society in general, should insist on making him one. He would be by far the best speaker at a masonic dinner that ever came out. A question of especial interest to travellers on the Continent has just been decided by a provincial judge. Is your hotel keeper bound to wake you up in the event of your wishing to leave by a certain night train? The answer has been given in the affirmative. The judge held that it was not only the duty of the hotel keeper to do so, but that he was liable to damages if he refused or neglected. In the case before the court the hotel keeper was let off with a fine of thirty francs, it being his first offence of the kind.—"London Standard."

"The "Shanghai News" reports that Mr. C. E. Hill, of Shanghai, between whom and the estate of Yang Taikee, an important law suit is now pending, has been violently assulted by a mob of 200 Chinamen on the new road now making between Hongkew and Woosung, a spot about four miles from Shanghai. He defended himself with great courage on a bridge where he made a stand against his assailants, and managed to escape from them; bruised and bleeding, but not seriously hurt. Some workmen who took his part were also severely beaten, and two headmen were left for dead.

The "Pall Mall Gazette" is informed that sudden orders have been received at Gibraltar, by telegraph, for the immediate break up of the Government Convict Establishment there. The convicts are to return to England. This will necessitate many changes in the garrison duties. The "Western Morning News" correspondent states that on the 23rd inst. a murderous attack was made on the warders by the convicts. The warders fired on the convicts with their revolvers, but the only man seriously hurt was McCabe, a soldier of the 53rd Fusiliers, and he was accidently shot dead while doing his duty as sentry during the melee. The convicts were overpowered and secured.

The birth and death of a miraculous child is reported from Saarlouis. The mother had just been confined, the midwives were holding forth garrulously on the "blessed little creature," and the friends were congratulating the father on his luck, when somebody asked what time it was. Judge of the surprise of all on hearing the new-born babe reply distinctly, "Two o'clock." But this was nothing to what followed. The company were looking on the the infant with speechless wonder and dismay, when it opened its eyes and said, "I have been sent into the world to tell you that 1875 will be a good year, but that 1876 will be a year of blood." Having uttered this prophecy, it turned on its side and expired, aged half-an-hour. The good people of Saarlouis, we are told, have been quite upset by the miraculous utterance of the precocious prophet.

A NOVEL BEQUEST.—An old gentleman named March died recently in Charlestown, who was a most eccentric genius. Though possessed of some wealth he had but one pleasure—that of theatre-going. He would economize in everything else, but always treat himself to a sight of every new play or actor, good or bad. He left no heirs and few relatives, and his property was disposed of in several singular ways. The principal item of his will provided for the investment of a sum sufficient to realize $500 per year clear, which was to be expended in theatre tickets, to be given away to poor, respectable people, not over $1 each to be paid for the tickets. The trustees under the will are otherwise given full authority in the carrying out of this provision, and will to-day perform the first act under it, spending the whole sum allowed. They have selected the Boston Theatre, Globe, Museum, and Howard, and will furnish 125 tickets to each house for any performance desired by the parties receiving them. — "Boston Herald."

How Horses are Humanely Shod--The Manner of Using the Goodenough Shoe.

Quite a gathering of gentlemen interested in horse flesh took place on Saturday night to witness the opening of the establishment devoted to shoeing horses according to the new method invented and patented by Mr. Goodenough. There were gentlemen present who had never tried the shoe, but desired to investigate its merits, and others who had used it on their animals for months. More for the benefit of that noble animal, the horse, than for any other purpose, a reporter of the *Bulletin* inquired of these latter gentlemen the result of their experience. Capt. Birdsell, who superintends that department of Wells, Fargo & Co.'s business expressed himself unhesitatingly and decidedly in its favour, as enabling the horse to do his work with more ease and comfort to himself. A driver of one of Perine & Co.'s heavy dray teams had used two sets of shoes on his team, and was fully satisfied that his horses could pull and back with more ease than with the old style of shoe. Mr. Skelly, of the North Beach and Mission railroad, said the company tried it on over 300 horses and found that they had many less lame horses now then before, while many of those supposed to be permanently injured were recovering. Mr Woodward, foreman of the road, was even more emphatic in his endorsement. John Wilson, of the circus, McCord & Maloon, Orrick Johnson, (who kept the first livery stable on the Pacific Coast,) Dr. Bucknell, Mr. Hunter, Secretary of the Society for the Prevention of Cruelty to Animals, Brady & Leinhardt, proprietors of the Lick House coaches, Dr. Perine, Dr. Mouser, Mr. Kingsley and numerous others added their testimony to the above, and if there were any present who had tried the new shoe and were dissatisfied, the reporter did not see them. These gentlemen seemed to agree upon the following superiority: First—Leaving the frog untouched, by which means it retained its life and elasticity, promoting healthy circulation in that part of the foot. Second—Bringing the weight of the animal on the whole bottom of the foot, instead of placing it upon three caulks, two of which were under the heel, thus producing those painful corns with which horses are afflicted. Mr. Woodward said: "With this shoe they cannot have corns; with the old one they must." Third—Placing the shoe on the hoof cold, thus avoiding burning the oil out of the hoof. Fourth—Placing no nail within an inch and a half of the back of the shoe, allowing the foot to expand naturally, as the foot grows instead of contracting upon the frog. From all the evidence it does seem that man's best servant will have his toil somewhat lightened and his comfort promoted by shoeing him upon scientific principles, with shoes made to conform to the natural foot, and applied cold to the hoof. After six months' practical trial, the system has been ordered applied to all the calvary horses by the Government authorities.—*S. F. Bulletin.*

CEYLON is likely to be added to the list of English colonies in which Church and State have been separated. At present the Government makes an annual grant of 90,000 rupees for the support of Episcopal and Presbyterian clergymen. This grant has always been resisted by the Baptists, and now the Buddhists make a claim fo Government aid for repair of their temples, which are falling into decay. The present Governor of Ceylon, Mr. W. H. Gregory, was formerly an adherent of Mr. Gladstone, and favours the withdrawal of the Government grants from the Churches. The working of the State System is well illustrated in a letter from Ceylon:—£10,000 a year is voted for the salaries of men in the colony, and in addition a large sum goes in the shape of pensions to clergymen who have staid here the regulation number of years, and who now have highly paid 'charges' in Australia, England, and Scotland, besides the fat pensions they draw from a land which needs every penny of its revenue for the opening up of the country and the support of existing institutions. To crown all, there are now in England three Bishops of Colombo—Bishop Chapman, who draws a pension of nearly £1,000 per annum; Bishop Claughton, who draws no pension, while Archdeacon of London; and Bishop Jermyn, who arrived here early in 1872, and has already been once away from the island, drawing full salary, £4,000.

A GREAT VARIETY OF NOVELTIES received by last steamer, are now for sale by THOS. Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia and Mandrake with the Iodides of Potassium and Iron makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of the same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Liver, Stomach, Kidney, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pistules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

FRENCH MEDICINES
PREPARED BY
GRIMAULT & CO.,
PHARMACEUTICAL CHEMISTS,
8, RUE VIVIENNE,
PARIS.

OF all the medicines offered to the public for many years past, none have met with such favorable reception, or been so generally approved by the Medical Profession, as those prepared by Grimault and Co.

The model laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant of Dr. Claude Bernard, Professor of Physiology at the College of France, offer guarantees to be found in no other establishment.

NURSING---PREGNANCY---EXHAUSTION.

Busart's Lactophosphate of Lime Preparations.

The preparations having Lactophosphate of Lime at their base, known as Dusart's Wine and Syrup are the most valuable tonic restoratives known. They promote the formation and the nutrition of tissues, render nurses' milk more rich and plentiful, and aid the formation of the infant during pregnancy. They stimulate the appetite, agree with feeble persons, convalescents, old people, and especially with children to counteract the tendency to rickets.

GRIMAULT & CO'S
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration, and restores the patient's strength. This syrup is the only one which, over since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault and Co., on bottles of an oval shape, the syrup being always of a rose colour.

GRIMAULT & CO'S
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious disease.

They combine extracrdinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures which result from the use of injections having a metalic basis.

Dentistry.

DR. BARNARD

HEREBY TENDERS HIS SINCERE THANKS to Dr. Thompson, of Portland, and the Ladies under his charge, who kindly permitted his witnessing the fillings of some of their teeth during his late sojourn in this city.

Every manipulation of the Doctor's was closely watched, from the adjustment of the **Rubber Dam** and its appliances to their teeth, to the formation of proper cavities and retaining pits therein, the **Packing and Condensation of Gold** and the subsequent polishing and burnishing of the same.

The Doctor is satisfied, from what he saw, and from recent operations of his own, that no perfect Filling can be accomplished without using the Rubber Dam and separately **Annealing** and **Malleting** every strip of gold into the cavity by itself. **Gold thus condensed must last a lifetime.**

DR. BARNARD is happy to inform the public that the process of preparing and Filling a Tooth with the aid of **New Instruments and appliances** is almost as much a pastime with him now as is the insertion of Partial or Entire Sets of Teeth.

Persons not born with a gold tooth in their mouth can readily have a Gold Crown built on a decayed tooth or solid portion thereof that will LAST FOREVER.

OFFICE: DOUGLAS ST., SOUTH OF FORT, FIRST HOUSE ON THE RIGHT.

☞ REMEMBER—**Rubber Dam, Green's Improved Electric Burring Engine and the best Filling Instruments of the highest authorities and manufactories in the States.**

ALL OPERATIONS NOW LESS TEDIOUS AND PAINFUL

Gold, Silver and Vulcanite Plates quickly repaired and Whole Sets completed at the shortest notice.

CELLULOID PLATES long since discarded by the Doctor.

None but first-class Operations performed.
